

gpu\_vector\_operations  
::add\_mul

```
graph LR; A["gpu_vector_operations::add_mul"] --> B["cublas_wrap::axpy"]
```

A diagram showing a call from a function to a library routine. On the left, a gray rectangular box contains the text 'gpu\_vector\_operations' on the first line and '::add\_mul' on the second line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'cublas\_wrap::axpy'.

cublas\_wrap::axpy
